

MEETING ATTENDANCE REGISTER

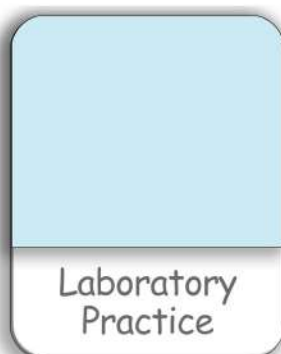

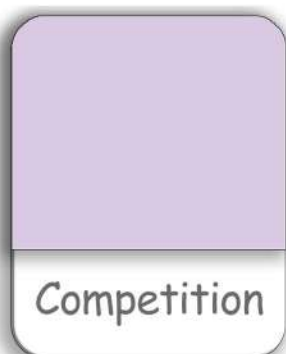

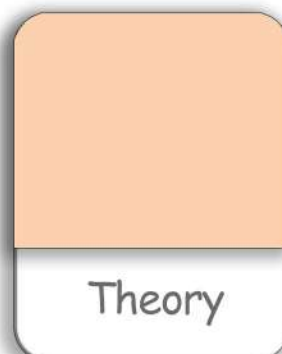

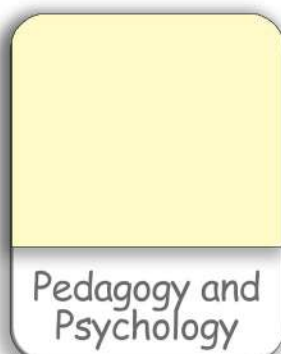

2021
SCIENCE DIVING
2021

FIRST NAME

LAST NAME

SCIENCE DIVING STUDENT MARATHON ACTIVITY PALETTE

NB: Participation in each event requires its own electronic registration via the Student Calendar on the KrasSMU website.

Registration is compulsory for students!

- Detailed information about each event and its venue can be found in the Events Calendar on the home page of the KrasSMU website.

March/April 2021

Events Calendar/ Meeting attendance sheet

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
29 Team competition «Case Study»	30 Poster presentation contest «The Role and Place of Immunotropic Drugs in the Pharmacotherapy of Viral Infections»	31 Announcement of Intramural Grants Competition - 2021 and Grant Writing Training Session	1 Creative competition of written works on the topic «Why do I (not) like histology?»	2 Science stream «From a wish to the article: 5 stages» (Ru/En) Part 2
Research lecture «How to organize and conduct a scientific search»	Science stream «From a wish to the article: 5 stages» (Ru/En) Part 1		Lecture on biochemistry «Intelligibly about biomolecules»	Science stream «On the way to scientific fame: 5 stages» (Ru/En) Part 1
			Interdisciplinary Case Competition «Scientific Laboratory» (En)	
			Cadaveric master class in surgery «Augmentation mammoplasty»	
5 «Lifhack» Psychological Quest in Medicine (Ru/En)	6 Presentation of the monograph «The Illusion of an ideal life: how to stop running after an imposed dream and become truly happy»	7 Lecture «COVID-19 features of the course of the disease»	8 Lecture on biochemistry «Entertaining biochemistry»	9 Science stream «From a wish to the article: 5 stages» (Ru/En) Part 4
School of a Young Scientist «Research design. Methods of collecting information and methodology of writing an article»	Science stream «From a wish to the article: 5 stages» (Ru/En) Part 3		Workshop «Antiradical activity of rutin and ascorbic acid with stable radical DPPH»	Science stream «On the way to scientific fame: 5 stages» (Ru/En) Part 2
12 Poster presentation contest «Psychological and pedagogical portrait of a future doctor»	13 Role-playing game for determining resistant bacterial strains and rational selection of antibacterial drugs	14 Science stream "From a wish to the article: 5 stages» (Ru/En) Part 5	15 Role-playing game for determining resistant bacterial strains and rational selection of antibacterial drugs	16 Science stream «On the way to scientific fame: 5 stages» (Ru/En) Part 3

Poster presentation contest «Immunophylaxis of infectious diseases»	Lecture «Robotics, exoskeletons in neurorehabilitation, their fashion and efficiency»	School of Young Scientist «Fundamentals of Medical Statistics» Workshop «Antiradical activity of rutin and ascorbic acid with stable radical DPPH» Team training with the elements of practical training «Emergency care in obstetrics»	Student's theoretical research contest on Molecular neurobiology and neurochemistry Surgery master class (the nerve suture under a magnifying glass, the vascular suture under a microscope)	Master-class «Secrets of academic writing» (the rules for preparing English-language articles) (En)
19 Master class «Secrets of academic writing in English» (En) History of scientific research at the Department of Histology	20 Festival of research projects in Pedagogy	21 School of Young Scientist «Receiving grant is simple. Make your first application» Team training with the elements of practical training «Emergency medical team on call »	22 Praxis-training in Histology Part 1 Lecture on biochemistry «Revolutionary biochemistry»	23 Science stream «On the way to scientific fame: 5 stages» (Ru/En) Part 4 Linguistic Internet marathon «Language of Science» Part 1 (Ru/En) Praxis-training in Histology Part 2
26 Linguistic Internet marathon «Language of Science» (En) Part 4 Surgical main stream: Laparoscopic surgery	27 School of a Young scientist «Scientific report. How to make a presentation»	28 Science slam on medical genetics «MicroRNA in Epilepsy» I əran «Lifehack» Psychological Quest in Medicine (Ru/En) Olympiad «Antimicrobial medicines»	29 Inter-faculty Olympiad in Biochemistry: «Biochemistry of organs and tissues» Cadaveric master class in surgery «Laparoscopic appendectomy»	30 Science stream «On the way to scientific fame: 5 stages» (Ru/En) Part 5 Master class in surgical technique (tendon, nerve and artery suture)

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
3	4 School of Young Scientist «Modern scientometric databases» Laboratory work and scientific research «Determination of glucose amount in blood and urine» Stage 1 (First team)	5 Praxis-training in Histology Part 3	6 Conference «Pharmacotherapy of Emergency conditions» Stage 1 Laboratory work and scientific research «Determination of glucose amount in blood and urine» Stage 1 (Second team)	7 Science slam on medical genetics «MicroRNA in Epilepsy» Stage 2
	11 Science slam on medical genetics «MicroRNA in Epilepsy» Stage 2 Laboratory work and scientific research «Determination of glucose amount in blood and urine» Stage 2 (First team)	12 Dialogue not on an equal footing Science slam on medical genetics «MicroRNA in Epilepsy» Stage 2	13 Conference «Pharmacotherapy of Emergency conditions» Stage 2 Participants: 3rd-5th year students from the Faculty of General Medicine Laboratory work and scientific research «Determination of glucose amount in blood and urine» Stage 2 (Second team) Master class in surgery «Ultrasound anatomy of the abdominal organs»	14 Workshop «Antiradical activity of rutin and ascorbic acid with stable radical DPPH» Round-table student conference «Evolutionary and religious anthropology pro et contra » (Ru/En)
10				

17 Conference «Pharmacotherapy of Emergency conditions» Stage 2 Participants: 3rd-5th year students of the Pediatric faculty	18 Laboratory work and scientific research «Determination of glucose amount in blood and urine» Stage 3 (First team)	19 Science slam on medical genetics «MicroRNA in Epilepsy» Stage 3	20 «Lifehack» Psychological Quest in Medicine (Ru/En)	21 Comics (infographic) competition «Microbiological diagnosis of infectious diseases»
Interdisciplinary Case Competition «Scientific Laboratory» (En)	Round-table student conference «Scientific Dialogue» (Ru/En) Master class «Entertaining surgery. Models of the digestive diseases»		Laboratory work and scientific research «Determination of glucose amount in blood and urine» Stage 3 (Second team)	Inter-faculty Olympiad in Biochemistry «Oxidative stress and antioxidants»
24 Role-playing game «Clinical Pharmacology with Pharmaceutical Consulting»	25 Young Healthcare Managers' Competition named after Prof. V.K. Sologub The Best Scientific Idea Competition named after Prof. V.A. Rudnev	26 The Best Surgical Work Competition named after Prof. V.F. Voynov-Yasenetsky The Best Therapeutic Work Competition named after Prof. V.A. Opaleva-Steganseva	27 The Best Student Work of the Year Competition named after Prof. I.I. Gitelson	28 Solemn event for summing up and rewarding the winners of the student marathon "Scientific Dividing - 2021"

Additional information

Here you can add information about your participation in other events that are not defined in the Events Calendar as well as about your wins in different scientific competitions.
